

CHEA Student Achievement Data

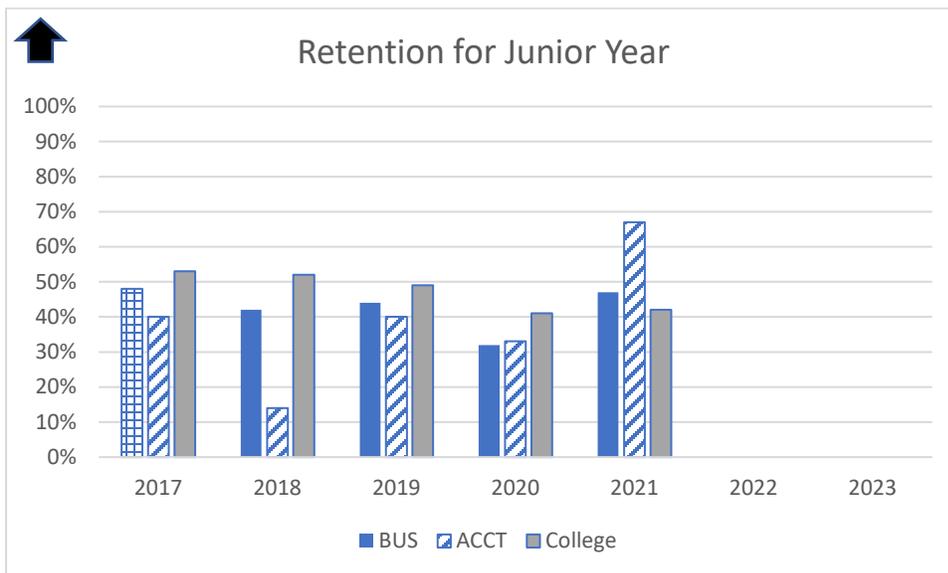

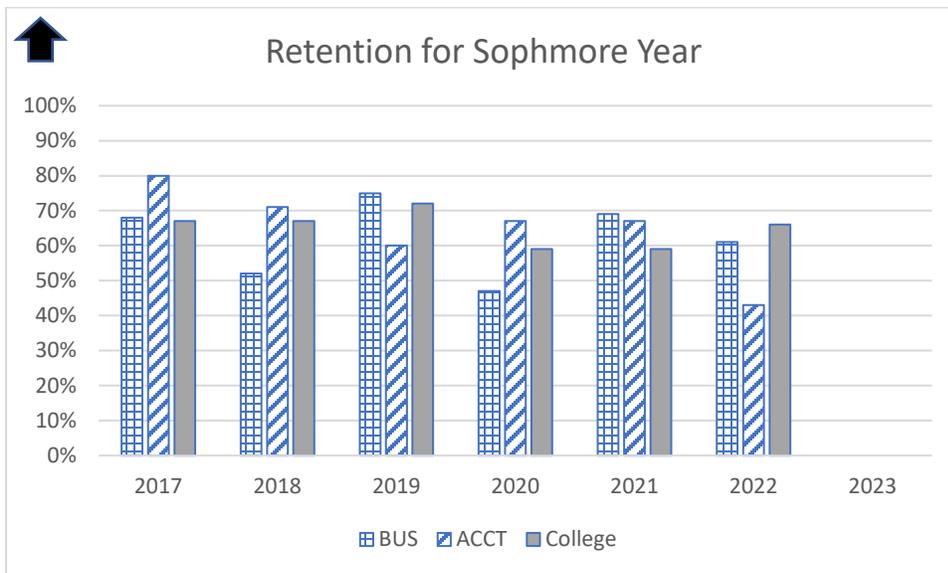

Updated Fall 2023

The Council for Higher Education Accreditation requires public reporting on specific student achievements. As these achievement areas are disaggregated to the program level, numerous confounding issues arise, making performance interpretation difficult. Regardless, the department of Business and Accounting monitors and reacts to these measures to induce improvement actions.

Student achievement is graphed below. Please get in touch with the department chair should you have any questions.

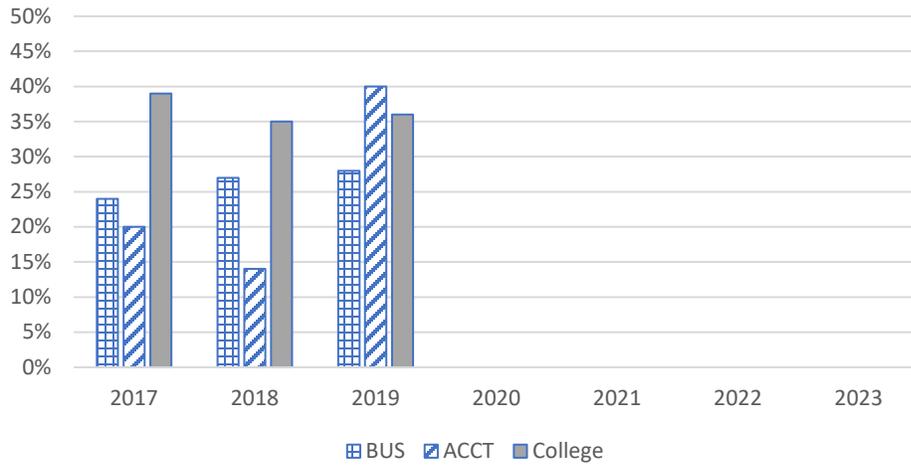

Michael Dutch, Ph.D., MBA
